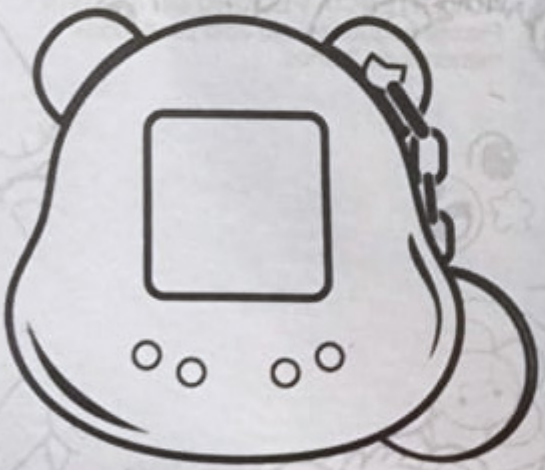
Digital Pet

Instruction Manual



Grumpy Bear™ Say hi to Grumpy Bear!

- Team mechanic and resident worrywart
- Builder of the Cloudseeker
- Flipant and smart-alecky
- Good-hearted guy, tone deaf to his own words

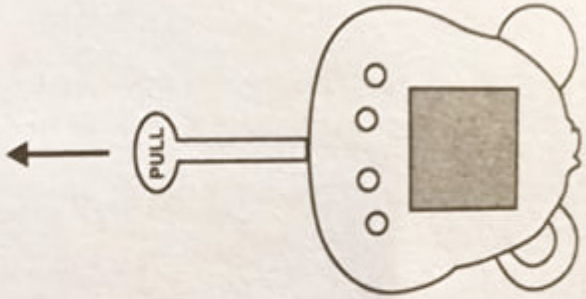
Now you can take Grumpy Bear everywhere! Play, feed, and nurture him so he can grow big and strong. Watch as he transforms from a baby, to a teenager, and then an adult!

Congratulations!

You are the new owner of the world's first Care Bears Digital Pet! The healthier and happier your bear is, the higher your score will be! These instructions will help you along the way.

Activating Your Device

To activate your Digital Pet, pull the plastic tab from the bottom of the device.

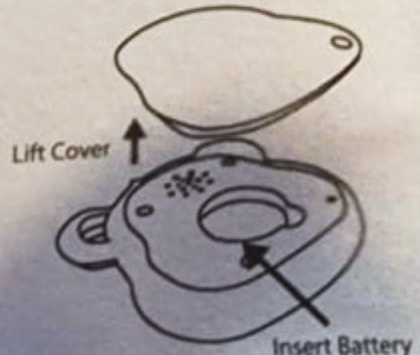


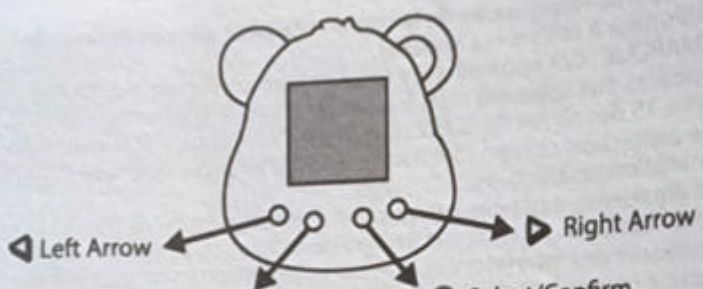
Replacing the Battery

Replace the battery any time you see the low battery symbol flash on the screen.

To insert a new battery, remove the battery cover, then safely dispose of the old button cell battery.

Replace with a new button cell battery, making sure to place battery with the negative side "-" facing down.





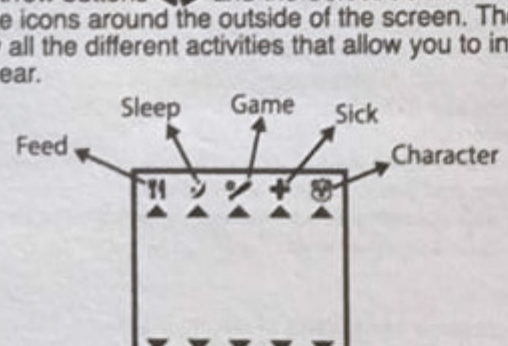
Setting the Clock (Super Important)

When you first turn the game on, you will have to set the time. Use the Arrow buttons ◁▷ to adjust the hour, then press the select/confirm button.

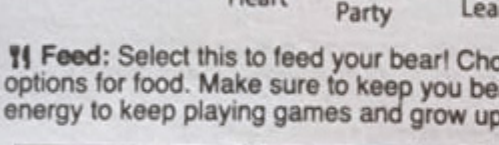
Press Arrow buttons ◁▷ to adjust the minutes, then press the select/confirm button.

Nurture, Feed, Play!

Press the Arrow buttons ◁▷ and the Select/Confirm button to select the icons around the outside of the screen. These icons show all the different activities that allow you to interact with your bear.

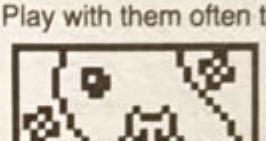


Feed: Select this to feed your bear! Choose between the 2 options for food. Make sure to keep you bear fed so it has the energy to keep playing games and grow up big and strong.

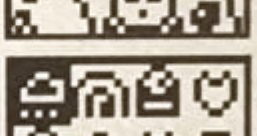


Sleep: Select this when you want your bear to rest!
Make sure your bear has enough sleep to keep them happy & healthy. They need a few naps a day and to sleep at night.
If your bear is tired they might not want to do other activities.

Game: Select this to play with your bear!
Choose between 2 mini games. Your bear loves to play games. Play with them often to keep your bear happy.

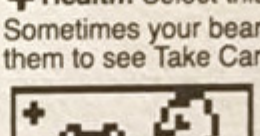


Going Home - Avoid the stones by pressing the Left/Right arrows ◁▷.
If you hit 3 stones, you fail.



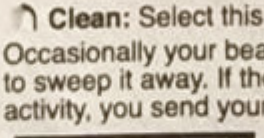
Matching - Use the Left/Right Arrows buttons ◁▷ and the Select/Confirm button to select matching symbols.

Health: Select this to heal your bear!
Sometimes your bear will become sick and so you need to take them to see Take Care Bear!

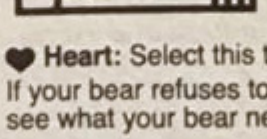


Name: Select this to display your bear's name!
Press the select/confirm button to see the name and the icon.
Press the Mode/Back button to go back.

Clean: Select this to keep your bear clean!
Occasionally your bear will drop litter on the floor, select this activity, to sweep it away. If the bear's home is clean and you select this activity, you send your bear to have a bubble bath!



Heart: Select this to check in on your bear's stats!
If your bear refuses to eat, sleep, play etc. then check the stats to see what your bear needs.



Care Points - the more you interact with your bear's needs the higher your score.

Food - keep your bear fed to raise this score.
Books - read stories to raise this score.

Health - go to Take Care Bear to raise this score.
Happiness - play games with your bear to raise this score.

Check your bear's ***Age & Weight*** to see how big and strong they're getting!

Dance: Select this to party!
Your bear loves to party. You can make them Sing, Dance, or Hula Dance. When they get older, they even learn to play the guitar!

Read: Select this to read a book!
Your bear loves to relax on the couch with a good book.

Alert: This Icon will flash to show that your bear needs something.
You can not choose this icon. Instead, have a look at how your bear is behaving - can you see them think about food? Do they look tired? Is there mess on the floor? You can also check the Heart icon to see which stats are low.

Game Over

No bear lives forever but you can give yours a long happy life by taking care of them. The life span of the average Kea Kuma Digital Pet Bear is around 2 weeks, but if you keep your bear really happy and healthy they may live for months! After this they will become an angel and float away. If you neglect your bear by letting any of the stats stay too low for too long then they may become an angel very soon.

Settings

Press the Mode/Back button to enter the settings menu.
Press the Arrow buttons ◁▷ to move between each option.

To change the time -

Select this option by pressing the Select/Confirm button
Use the Arrow buttons ◁▷ to adjust the hour, then press the select/confirm button
Press Arrow buttons ◁▷ to adjust the minutes, then press the select/confirm button

To change the volume -

Toggle between Sound On and Sound Off by pressing the Select/Confirm button

To reset the device -

You can reset the device after your bear turns into an angel or at any point to start again.
Use the Arrow buttons ◁▷ to choose between 'Y' and 'N'.
Double press the Select/Confirm button to reset the device.
